Make Numbers Fun

Creative Activities for Early Learners

Play Practice Explore Learn!

1 Build Numbers

Use blocks, LEGO or any toys to build the number.

2 Find Numbers in Daily Life

Look for numbers on house doors, clocks, calendars, cars, lifts, packets and more.

3 Number Hunt

Hide number cards around the room. Let your child find them and say the number aloud.

4 Number Puzzles

Try simple number jigsaw puzzles to match numbers and pieces.

5 Use a Number Line

A number line helps children understand the order of numbers.

0 1 2 3 4 5 6 7 8 9 10

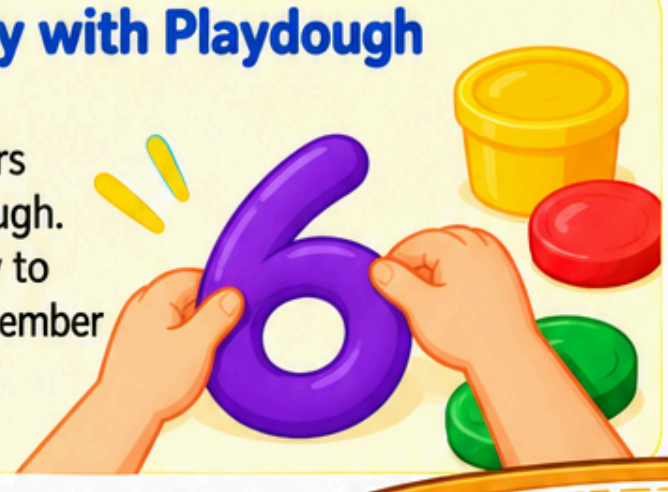

6 Draw and Color

Let your child draw the number and color the same number of objects.

7 Play with Playdough

Make numbers using playdough. It's a fun way to learn and remember their shape.

8 Count While You Do Everyday Activities

Count steps, count spoons while setting the table, count fruits while cooking or count toys while cleaning.

Numbers Make Big Dreams!
